

Dear colleagues,

JSS College of Nursing is an esteemed nursing educational institution located at Mysore. With its serene and refreshing atmosphere, the campus provides a congenial environment for education. It focuses on promoting quality nursing through quality nursing education and developing nursing professionals who are self-reliant and compassionate there by grooming the students to be citizens of integrity. We are pleased to inform you that the M.Sc. Nursing students of JSS College Of Nursing, Mysore are organizing a State Level Workshop on “**Developing a research temperament**” for the benefit of target group On 11th and 12th December of 2012.

REGARDING WORKSHOP:

The health field makes significant advances every day. As science unfolds and expands man's concept of the boundaries of medicine, we can expect that this will cause considerable and important leaps in the area of nursing care.

Research is essential for the nurse professionals to provide evidenced-based nursing care. Research knowledge helps the nurses to improve their decision making in organizing their care. Evidences generated from the research bring in positive and need-based changes in the nursing education, practice and health policy. Research not only generates useful insights and confidence but also acts as a stimulant for academic growth.

Adequate knowledge of research and biostatistics help the researchers to develop an ability to critically read, interpret and to use the research findings from all sources.

The overall aim of workshop is to strengthen the knowledge of participants on research and, so as to enable them to interpret and utilize the research finding for providing quality client care.

OBJECTIVES

At the end of the workshop, the participants are able to:

1. Appreciates the use and selection of qualitative and quantitative research design.
2. Identifies an appropriate sampling technique.
3. Applies suitable theoretical /conceptual framework for various research design.
4. Computes the appropriate statistics for analysis of data.
5. Develops skill in data presentation.

TARGET GROUP:

- Post Graduate students and teachers of Nursing,
- Physiotherapy,
- Speech & hearing and
- Ayurveda
