JSS College of Nursing

Preparing
professional
nurses through
quality education

JSS Mahavidyapeetha

Our Founder

Jagadguru Dr. Sri Shivarathri Rajendra Mahaswamiji

The 23rd Pontiff of Suttur Math, Jagadguru Dr. Sri Shivarathri Rajendra Mahaswamiji was a great visionary who at the tender age of 12, initiated the establishment of a boarding home for poor students from rural areas under the auspices of the math. This beginning made way to the establishment of JSS Mahavidyapeetha into an institution, which has spread its wings across the nation and in foreign countries. Much of what has been achieved by JSS Mahavidyapeetha was a direct result of the dynamic leadership provided by His Holiness.

JSS Mahavidyapeetha

JSS Mahavidyapeetha, Mysore, has a history of nearly six decades in promoting the cause of education across the nation and in foreign countries. Jagadguru Sri Shivarathreeswara Mahavidyapeetha is the central body that runs over 300 educational institutions. It was established in the year 1954 by the foresight and vision of His Holiness Jagadguru Late Sri Dr. Shivarathri Rajendra Mahaswamiji, the 23rd pontiff of Suttur Math. The JSSMVP runs institutions from the crèche level to research institutions, training doctoral scholars. The present pontiff, His Holiness Jagadguru Sri Shivarathreeswara Deshikendra Swamiji has been the president of JSS Mahavidyapeetha since December 1986. Under his able direction and blessings, many high schools, several general education, PU and degree colleges, two pharmacy colleges, a

medical college, a dental college, an ayurveda college, four engineering colleges, three schools of nursing and a college of nursing are making a steady progress. The present pontiff with vision, enthusiasm, dedication and devotion to the causes dear to his illustrious predecessors, has been the driving force in formulating the policies and programmes in terms of widening the educational network of JSS. Aptly, JSS Mahavidyapeetha has been endorsed by many educational institutions as more than a university, which became a reality in the year 2008 with JSS University coming into existence under the aegis of JSSMVP. Presently, the JSS University has medical, dental and pharmacy colleges of JSSMVP under its umbrella. Several thousands of students, teachers and employees derive benefit from the Mahavidyapeetha.

As a nurse, you get more
than a rewarding career.

The satisfaction of rendering a noble service
to humanity

Florence Nightingale

The Founder
of Modern Nursing

"Nursing is an act of using the
environment of the patient
to assist him in his recovery"

Nursing according to International Council of Nurses

Nursing encompasses autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well and in all settings. Nursing includes the promotion of health, prevention of illness, and the care of ill, disabled and dying people. Advocacy, promotion of safe environment, research, participation in health policy and in patient and health systems management, and education are also key nursing roles.

We offer you
a sound practical experience.

After all, very few colleges have the backing of
a 1,750 bedded hospital.

Comprehensive clinical training support

The JSS College of Nursing is privileged to have the support of a 1,750-bedded state-of-the-art JSS Hospital as a teaching hospital for its students. The hospital has several specialty and super specialty departments, 24 hi-tech operation theaters and ICU facilities. This modern facility will effectively serve the healthcare needs of the people of Mysuru and surrounding areas. The huge support provided by JSS Hospital has indeed given our college a distinct edge in terms of clinical training offered to the students.

JSS College of Nursing

Various health surveys brought to light the fact that the strength of nursing staff in all the fields of health needs to be increased appreciably. The high power committee on 'Nursing and Nursing Profession' set up by the Central Government gave its recommendations at the end of March 1990. One of the recommendations was that the nursing education needs to be fitted into the national stream of education to bring about uniformity, recognition and standards.

The committee recommends that there should be two levels of Nursing Personnel viz., Professional Nurse (Degree level) and Auxiliary Nurse/Vocational Nurse (Plus two level). This is the internationally accepted pattern of nursing education.

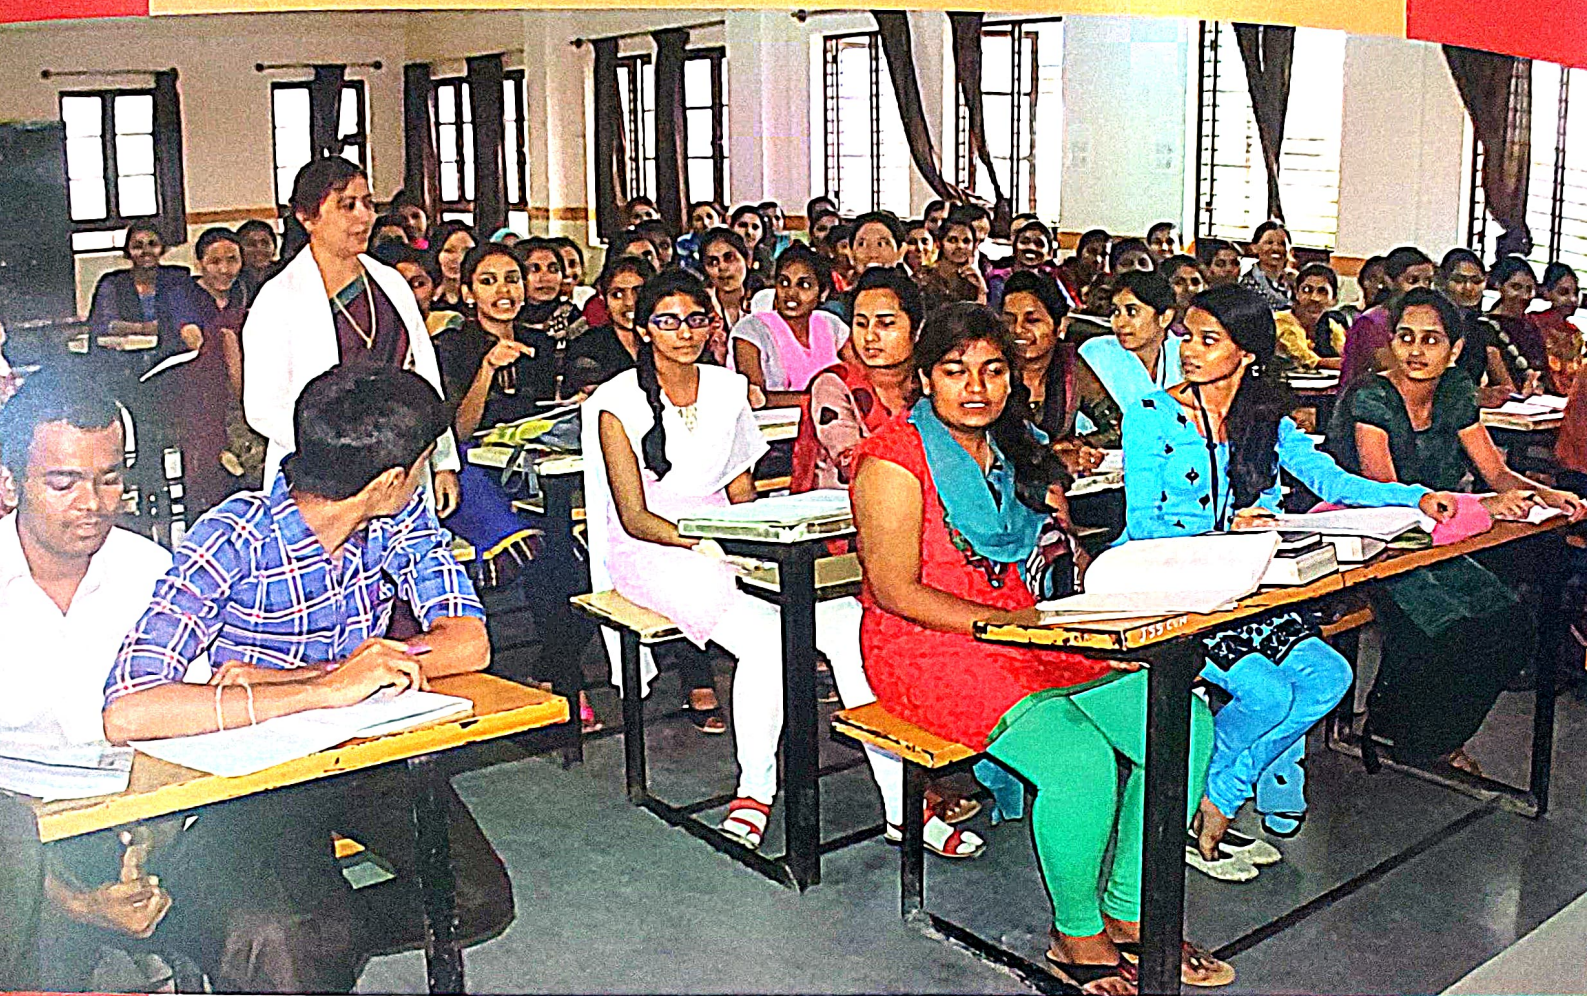

The JSS College of Nursing was started in November 1997 by the foresight and vision of His Holiness Jagadguru Sri Shivarathreeshwara Deshikendra Mahaswamiji to prepare professional nurses at the university level, in order to improve standards of nursing service through quality nursing education. The idea was conceived in 1990 and nurtured for seven long

years. This is the first college of nursing started in the city of Mysuru. It is also the first college of nursing in Mysuru to start a post graduation course in nursing. Its motto is to maintain the standards of nursing education and all efforts are made to deploy well qualified and experienced faculty to achieve the goal.

Our teaching methodology has a unique approach.

It focuses on helping the students to have a thorough understanding of the subject.

Teaching Methodology

Our teaching methodology has a unique approach. It revolves around concept mapping and problem based learning. Even our assessment techniques set us apart from the rest. Our Objective Structured Clinical Examination (OSCE) and Objective Structured Practical Examination (OSPE) ensure that our students are thoroughly assessed before they are ready to make a mark in their profession.

Philosophy

The JSS College of Nursing, an off-shoot of JSS Mahavidyapeetha, Mysore, is affiliated to Rajiv Gandhi University of Health Sciences, Bangaluru, and recognized by the Indian Nursing Council. It subscribes to the philosophy of providing professional education at the university level.

The faculty supports the principles that the purpose of education is harmonious and all round development of individuals, which is brought about by meaningful experiences coordinated from classroom to the clinical field level, within a climate of mutual respect and understanding.

The faculty views nursing as a profession, which contributes to the health services in a vital and significant way. It recognizes national health goals and is committed to participate in the implementation of National Health Policies and Programmes. It believes in identifying health needs of the people, planning and providing quality healthcare in collaboration with other health professionals and community groups. The scope of nursing includes prevention of diseases, promotion of health in individuals, families and community and the care of sick, injured and infirm in the hospital and/or community. We also view that the concept of comprehensive nursing includes care during wellness, illness and rehabilitation; guiding and teaching the patient and family regarding continued care, recovery and maintenance of health.

The faculty believes that nursing education is based upon an understanding of man, derived from the knowledge of humanities, psychological, social, biological and physical sciences. Nursing is based on values of caring and aims to help individuals to attain independence in self care. It necessitates development of compassion and understanding of human behavior among the practitioners to provide care with respect, dignity and protect the rights of individuals and groups.

The faculty accepts the fact that undergraduate nursing programme is broad-based education within an academic framework specifically directed to the development of critical thinking skills, competencies & standards required for practice of professional nursing and midwifery as envisaged in the National Health Policy 2002. The faculty also accepts and appreciates that the teachers have the responsibility to be role models and create a learning environment that enables students to acquire inquisitiveness driven, self directed learning and fosters an attitude of lifelong learning. The faculty is also responsible for preparing better qualified nurses to assume the responsibilities of providing holistic patient care at various levels in different healthcare settings. The teachers must also be prepared to improve their knowledge and skills through channels of higher education.

The undergraduate nursing education program will also prepare its graduates to become exemplary citizens by adhering to code of ethics and professional conduct at all times in fulfilling personal, social and professional obligations, so as to respond to national aspirations.

The faculty further believes that the Master of Nursing Programme built upon a recognized Bachelor's Curriculum in Nursing (recognized by Indian Nursing Council), prepares nurses for leadership position in nursing and health fields, who can function as specialist nurse practitioners, consultants, educationists, administrators and investigators in a wide variety of professional settings in meeting the national priorities and the changing needs of the society. The programme prepares nursing graduates who are professionally equipped, creative, self directed and socially motivated to effectively deal with day-to-day problems within the existing constraints and this will act as an agent of social change. Further, the programme encourages accountability and commitment to lifelong learning, which fosters improvement of quality care.

Qualified Teachers, State-of-the-art Labs, Well-equipped Classrooms, Campus Selection, etc.

Reasons that make us the right choice for you

The uncompromising attitude of JSS College of Nursing has made it one of the best choices among nursing colleges. The college has a highly qualified team of faculty, state-of-the-art labs and classrooms with AV projectors. Students are provided with individual desks and the labs are upgraded every year. The college offers better facilities to students to ensure that they get the best academic experience.

Our Mission

- To promote quality nursing services through quality nursing education
- To develop nursing professionals who are self-reliant and compassionate

Discipline

- Students are expected to adhere to the disciplinary code of the college

Dress Code

- Students should come to the college with the dress code prescribed at the time of admission

Our Vision

- To transform our college into a center of excellence in nursing education & research conforming to national and international standards
- To groom students to become citizens of integrity

Prohibited Activities

- Loitering without reason
- Creating disturbance in college activities
- Use of cell phones in classrooms, labs, corridors, library, college, office and clinical facilities
- Ragging & eve teasing
- Smoking or using alcoholic beverages inside the campus
- Entertaining outsiders in the campus

A beehive of activities

Not surprising, when you consider the large number of workshops and seminars conducted by us.

JSS Nursing College conducts a large number of workshops and seminars every year with a view to further advance the nursing profession and give our students a sound exposure. We regularly conduct state level workshops and a national workshop every alternative year, in which a minimum of 5 to 6 states partake. The college also regularly publishes an e-journal (once in four months).

The faculty of the college has a strong orientation to research. Every member of the faculty is involved in projects and they regularly publish research papers in peer reviewed journals.

We have been achieving 100% placement every year. Out of this, 60% are placed abroad.

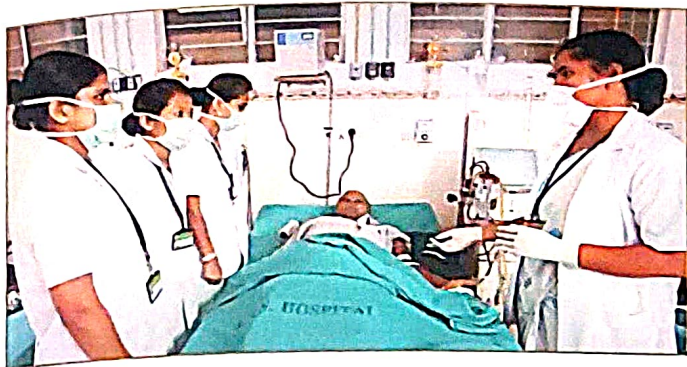

JSS Nursing College has a formidable record when it comes to placement of students. The college has been consistently placing all its students in reputed hospitals in India and abroad. Some of our students

also regularly pursue higher studies in places such as Manipal College of Nursing and College of Nursing in Vellore.

Facilities

1. Academics

- The college has well qualified & experienced teaching faculty, who strive hard to impart quality nursing education and give personal attention to each student.
- The college has well equipped and spacious classrooms and laboratories viz. Fundamental Nursing Lab, Community Health Nursing Lab, Obstetrics and Child Health Nursing Lab, Audio-Visual Lab, Nutrition Lab and Computer Lab.

2. Clinicals

- The College has its own parent hospital – JSS Hospital with 1,750 beds, which has all clinical departments with specialty areas like Urology, ENT, Ophthalmology, Nephrology, etc.
- All the departments are provided with latest equipment for efficient management of patient care.

Hostel Accommodation

Hostel is compulsorily provided for Basic B.Sc. Nursing students. For students of other courses, hostel accommodation is available on demand (only for girls). Boys of all the courses can avail the hostel facility at JSS Medical College Boys' Hostel, which is located at a distance of 8 km from the college.

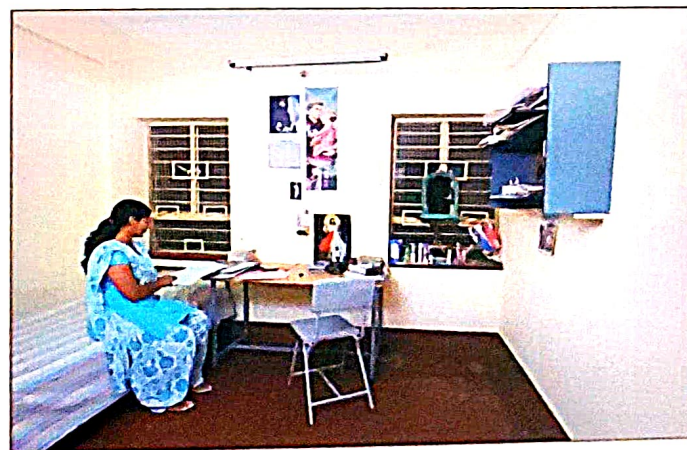

A written permission from the Principal is required for staying out of the hostel after the regular permitted hours and while leaving station (Mysuru).

- Those students who do not follow the rules & regulations of the hostel will be liable for dismissal from the hostel.
- No valuables (jewellery) are permitted in the rooms. The management does not bear responsibility in case of loss.
- Students will not be permitted to go home during the academic session, other than the vacation period. This rule has to be strictly adhered to by the parents and students.

4. Health Facilities

The health services of JSS Hospital, JSS Ayurvedic Hospital and outpatient department (except drugs & consumable items) are available to the students at the time of illness on payment of the health insurance fee. An accident insurance scheme has also been made mandatory for all the students on payment of an annual premium of Rs. 282/- towards the same.

Facilities

5. Transport Facilities

Two buses have been made available to take students from college to hospital and other clinical areas.

6. Counseling and Guidance

Personal problems of students are looked into and necessary counseling and guidance is provided to them by the college faculty.

7. Postal and Banking Facilities

These services are available near JSS Hospital and Hostel.

ANTI-RAGGING POLICY

1. Preamble

JSS College of Nursing, Mysuru, is committed to fostering a safe, inclusive, and respectful environment for all its students. Ragging and bullying are strictly prohibited and are considered grave offenses that undermine the dignity and well-being of individuals. This policy outlines the college's zero-tolerance stance against ragging and bullying, establishes the Anti-Ragging and Anti-Bullying Committee, and defines its roles, responsibilities, and the procedures for prevention, prohibition, and redressal in accordance with statutory regulations

2. Objectives

The objectives of this Anti-Ragging and Anti-Bullying Policy are to:

- Prohibit any act of ragging or bullying, whether physical, psychological, or emotional.
- Prevent the occurrence of ragging and bullying incidents within the college premises, hostels, and any place where students gather for academic or co-curricular activities.
- Ensure prompt and fair investigation of all reported incidents of ragging and bullying.
- Take strict disciplinary action against individuals found guilty of ragging or bullying.
- Promote a culture of mutual respect, understanding, and camaraderie among students.
- Comply with all relevant statutory provisions and regulations concerning ragging.

4. Anti-Ragging and Anti-Bullying Committee (ARABC)

The Anti-Ragging and Anti-Bullying Committee shall be constituted annually and will comprise members from various stakeholders to ensure a broad representation and effective functioning.

Proposed Committee Structure:

- **Chairperson:** Prof. Aswathy Devi MK, Principal, JSS College of Nursing, Mysuru.
- **Faculty Members:**
